PROFESSIONAL SUMMARY

Highly motivated **Self-Learner**, **Junior MERN Stack Developer**, and CSE Student at BUBT. Mastering full-stack development through independently sourced professional resources (YouTube, Documentation, and Open Source) with an **up-to-date technical mindset**. Specialist in creating high-quality, interactive interfaces with **React.js**, **Framer Motion**, and **GSAP**. Strong foundation in **System Analysis & Design** and **Advanced Java**.

TECHNICAL SKILLS

- **Frontend:** React.js, Next.js, JavaScript (ES6+), TypeScript, HTML5, CSS3, Tailwind CSS, DaisyUI, PrebuiltUI, Framer Motion, GSAP.
- **Backend & Core:** Node.js, Express.js, **Advanced Java Programming**, RESTful APIs, JWT, Firebase.
- **Architecture & Design:** **System Analysis & Design (SAD)**, Database Management Systems (DBMS), OOP.
- **Databases:** MongoDB (Mongoose), PostgreSQL, Database Schema Design.
- **Tools:** Git/GitHub, Vercel, Netlify, Stripe API (Integration), Postman, Axios, Web3Forms.

FEATURED PROJECTS

GMartBD - MERN E-commerce Application

[GitHub] | [Live Link]

- Developed a full-stack marketplace featuring user authentication, product categorization, and a shopping cart.
- Implemented a dual-checkout flow featuring **Cash on Delivery (CoD)** logic and a **Stripe API** bridge.
- Utilized **System Analysis** to map out user workflows and design normalized MongoDB schemas.
- Designed a responsive UI focused on smooth product transitions and mobile-first accessibility.

Agency.AI - Modern Agency Landing Page

[GitHub] | [Live Link]

- Engineered a visually immersive digital agency interface using **React.js** and "Glassmorphism" UI trends.
- Developed advanced scroll-triggered animations and interactive elements using **Framer Motion** and **GSAP**.
- Integrated **Web3Forms** for serverless form handling and real-time user feedback notifications.

SAAS Streamerz - Interactive SaaS Interface

[GitHub] | [Live Link]

- Built a high-conversion landing page using **React** + **Vite** for optimized development and performance.
- Leveraged **Tailwind CSS** for modular styling and ensured 100% cross-browser responsiveness.
- Followed clean-code principles and modular component architecture for easy scalability.

OPEN SOURCE & SELF-LEARNING

- **Autodidactic Growth:** Independently mastered modern web stacks using official documentation and community tutorials (YouTube, Dev.to).
- **GitHub Contributor:** Actively documenting personal MERN repositories to assist the developer community.
- **Documentation:** Writing clear READMEs for complex animations to help other junior developers.
- **Community:** Participating in code reviews and keeping current with evolving DevOps and UI trends.

EDUCATION

B.Sc. in Computer Science and Engineering (CSE)

2023 – Present

Bangladesh University of Business and Technology (BUBT), Mirpur-2, Dhaka, Bangladesh

- **Key Coursework:** **Advanced Java Programming**, **System Analysis & Design**, Data Structures, Algorithms, Database Management Systems (DBMS), Web Engineering.

ACTIVITIES & INTERESTS

- **Advanced Tech Exploration:** Actively exploring enterprise-grade technologies including **Docker**, **Kubernetes**, and **Microservices**.
- **Problem Solving:** Practicing algorithmic challenges to improve logical reasoning and system efficiency.
- **Design Philosophy:** Keeping up-to-date with modern UI/UX principles and DevOps automation trends.
